

RESEARCH SYMPOSIUM 2019

Freitag, 22. Februar 2019, 09:00 - ca. 16:00 Uhr,
 BOKU Wien, Gregor-Mendel-Str. 33, 1180 Wien, Festsaal (MENH—03/01)

09:00 – 09:05	Begrüßung durch den Departmentleiter Klaus Hackländer (DIBB)
09:05 – 09:30	Manuela Brandl (ZOO): Re-establishing grasslands to promote farmland biodiversity and key ecosystem services
09:30 – 09:55	Margit Zohmann-Neuberger (IWJ), Monika Kriechbaum (INF), Johannes Tintner-Olifiers (IPM), Ena Smidt (IPM), Robert Rosenberger (IWJ), Herbert Nopp , Alberto Bosa , Ursula Nopp-Mayr (IWJ) Bridging the gap? Outcomes and future plans on the application of FT-IR spectroscopy for nutritional analyses in grouse species
09:55 – 10:20	Klaus Hackländer (IWJ): Recovery and management of wolf in Austria
10:20 – 10:45	Paul Griesberger (IWJ): How human activities shape the behaviour and physiology of red deer
10:45 – 11:15 Kaffee & Kuchen	
11:15 – 11:40	Katharina Renner-Martin (MAT): Best fitting growth curves of the von Bertalanffy-Pütter type
11:40 – 12:05	Papius Tibihika (INF): Multi-level analysis on local adaptation of the East African Nile tilapia (<i>Oreochromis niloticus</i> , Linn, 1758) from various environments
12:05 – 12:30	Manuel Cardoso Curto , Bärbel Pachinger , Sophie Kratschmer (alle INF): Application of multi-loci metabarcoding approaches to pollen identification and implication in bee foraging behavior
12:30 – 13:30 Mittagspause (kaltes Buffet)	
13:30 – 13:55	Manuela Winkler (GLORIA/BOT): Different biomes, different responses of alpine plant communities to climate change impacts - Mediterranean vs. temperate and boreal mountains
13:55 – 14:20	Anna Seidl (BOT): Biogeographical dynamics of plant taxa and climate-landscape history of the Eurasian steppe belt: Genes documenting history
14:20 – 14:45	Peter Hietz (BOT): Plant physiology meets genetics
14:45 – ca. 16:00 Kaffee, Kuchen und Kontakte knüpfen	

Keine Anmeldung notwendig!
